SUMMARY

FRIDAY, JANUARY 17, 2014

8:00am Paper Session #1 TOPIC: Breast/Endocrine

- “Extranodal Extension on Sentinel Lymph Node Dissection: Why Should We Treat It Differently?”
- “Increased Likelihood of Mastectomy in Human Epidermal Growth Factor Receptor 2 (HER2NEU) Positive Ductal Carcinoma in Situ (DCIS)”
- “Long-Term Follow-Up of Conservative Surgical Management in Inflammatory Breast Cancer Patients Treated with Neoadjuvant Chemotherapy”
- “Histological Assessment of Breast Lesions Identified Exclusively by Magnetic Resonance Imaging”
- “The Impact of Surgeon Volume on Incidence and Severity of Neck Hematoma after Thyroid and Parathyroid Surgery: Ten Years Analysis of Nationwide Inpatient Sample Database”.

9:00am Paper Session #2 TOPIC: Hepatobiliary

- “Mucinous Cystic Neoplasms (MCNs) of the Pancreas: We are Overestimating Malignant Potential”
- “Subtotal Versus Total Cholecystectomy in Complicated Cholecystitis”
- “Critical Analysis of Parenchymal-Preserving Approach to the Management of Peri-Ampullary Tumors”
- “Pancreatic Resection Using Hybrid Open and Laparoscopic Surgical Approach”
- “Duodenal Adenocarcinoma: Why the Absence of Duodenal Bulb Primary Tumors?”

10:30am Paper Session #3 TOPIC: Trauma

- “Trauma System Overtriage: Are We On Track?”
- “Abdominal Hollow Viscus Injuries Increase the Risk for Spine and Neurologic Infections in Patients with Penetrating Spinal Cord Injuries”
- “The Utility of the Anatomic "Zones" of the Neck in the Assessment of Penetrating Neck Injury”
- “Incidence of Intracranial Hemorrhage and Outcome After Falls in the Geriatric Trauma Patients Taking Pre-Injury Anticoagulants”
- “Effect of Marijuana Use on Outcomes in Traumatic Brain Injury”
- “Management of Patients with Evisceration Following Abdominal Stab Wounds”
SUMMARY

11:30am Poster Session I

- “A Surgeon's Initial Experience with PerOral Endoscopic Myotomy (POEM) in Patients with Achalasia”
- “Risk Factors of Postoperative Myocardial Infarction Following Colorectal Surgeries”
- “Predictors of Disease Recurrence in Invasive Breast Cancer Patients Differ Based on Nodal Status”
- “Difference in Approach and Outcomes for Distal Pancreatectomy at Tertiary Care Center versus Community Hospitals”
- “A Single Center Experience of 64 Cases of Phyllodes Tumors to Understand Risk Factors and Disease”
- “Radiocephalic Fistulas for Hemodialysis: A Comparison of Surgical Techniques”
- “Non-Operative Management of Nonfunctioning Pancreatic Neuroendocrine Tumors”
- “Predictors of Surgical Complexity in the Treatment of Choledocholithiasis: Number of ERCP Attempts and CBD Diameter Matter”
- “Significance of Isolated Free Fluid on CT Scan for Blunt Abdominal Trauma in Males”
- “Popliteal Artery Entrapment Syndrome: An Under-Recognized Cause of Leg Pain in Young Adults”
- “Effect of Bioabsorbable Staple Line Reinforcement on Anastomotic Leak in Colorectal Surgery”
- “Utilization of Endoscopic Stenting to Manage Staple Line Leaks after Laparoscopic Sleeve Gastrectomy”
- “Endoscopic Clipping for Persistent Gastrocutaneous Fistulae in Children”

1:15pm Paper Session # 4 TOPIC: Acute Care Surgery

- “Fournier's Gangrene: A Model for Early Prediction”
- “Predictors of Mortality in Necrotizing Soft Tissue Infection”
- “The Role of Activated Prothrombin Complex in Venous Thromboembolic Complications in Trauma Patients”
- “Defining Early Trauma-Induced Coagulopathy Using Thromboelastography”
- “Aspirin Increases the Risk for Venous Thromboembolism in Surgical Patients: An Unexpected Finding”

2:30pm What’s New in Surgery Part I

- What’s New in Trauma Surgery
- What’s New in Pediatric Surgery
- What’s New in Bariatric Surgery
SUMMARY

3:45pm  What’s New in Surgery Part II

- What’s New in Thoracic Foregut Surgery
- What’s New in Vascular Surgery
- What’s New in Surgical Education

4:30pm  Paper Session # 5  TOPIC: General Surgery

- “Outcome of Abdominal Wall Hernia Repair with Biologic Mesh: Permacol™ vs Strattice™”
- “The Cost of Preventing Readmissions: Why Surgeons Should Lead the Effort”
- “Surgical Malpractice: Res Judicata”
- “Rhabdomyolysis in Obese Trauma Patients”
- “Do Preoperative Beta-Blockers Improve Outcomes in High-Risk Surgical Patients? Challenging the SCIP Measures”

SATURDAY, JANUARY 18, 2014

8:00am  Paper Session #6  TOPIC: Gastroesophageal

- “Weight Loss After Gastrectomy for Gastric Cancer”
- “Gastro-Esophageal Reflux Reported on Esophagram does not Correlate with pH and High-Resolution Esophageal Manometry”
- “Recurrence Patterns of Gastric Adenocarcinoma after Gastrectomy with D2 Lymphadenectomy”
- “Absorbable Mesh in Hiatal Hernia Repair”
- “Magnetic Sphincter Augmentation with Linx Device for GERD Post FDA Approval”

9:00am  Paper Session #7  TOPIC: Bariatric

- “Outcomes of Laparoscopic Sleeve Gastrectomy Versus Laparoscopic Adjustable Gastric Banding for the Treatment of Morbid Obesity”
- “Changes in Cardiovascular Risk Factor After Laparoscopic Stapling Procedures vs Laparoscopic Gastric Banding”
- “The Influence of Resected Gastric Weight on Weight Loss After Sleeve Gastrectomy”
- “Body Mass Index is Predictive of Higher Mortality in Patients Undergoing Laparoscopic Gastric Bypass but not Laparoscopic Sleeve Gastrectomy or Gastric Banding”
CONCURRENT SPECIALTY SECTION SESSIONS

2:30pm  BREAST SURGERY SPECIALTY SESSION

- "Recent Innovations in the Neoadjuvant and Adjuvant Treatment of Breast Cancer"
- "Partner's Clinic: Feasibility of Psychosocial Intervention for Newly-Diagnosed Breast Cancer Patients and their Partners Prior to Initial Consultation at an NCCN Cancer Center"
- "Are Primary Care Providers Prepared to Care for Breast Cancer Survivors in the Safety Net?"
- "Cancer Care Disparaties in the Central Valley: Ground Zero for a New Public Safety Net Breast Program"
- "Controversies in DCIS Management"
- "Comparison of (99mTc)-Tilmanocept and (99mTc)-Sulfer Colloid in Rate of Sentinel Lymph Node Visualization on Lymphoscintigraphy in Breast Cancer Patients"
- "MRI-Initiated Breast Biopsy: A Burden of Care Analysis"
- "Predictors of Disease Recurrence in Invasive Breast Cancer Patients Differ Based on Nodal Status"
- "Management of the Axilla in the post-Z0011 Era"

2:30pm  MIS/GENERAL SURGERY SPECIALTY SESSION

- "Esophagram and Hiatal Hernia: What You See is NOT Always What You Get."
- "Controversies in Anti-Reflux Surgery"
- "Post Inguinal Herniorrhaphy Pain: Causes and Prevention"
- "Brief Algorithm for Treatment of Iguinodynia"
- "The Difficult Gallbladder"

2:30pm  CARDIO-THORACIC/VASCULAR SURGERY SPECIALTY SESSION

- "Tricuspid Regurgitation: Is Early Surgical Intervention Justified?"
- "The Effect of Pulmonary Metastasectomy on Survival: An Institutional Analysis"
- "Intrathoracic Pressures Prior to Chest Tube Removal in Patients with Chest Injuries"
- "Current Management of Prosthetic Valve Thrombosis: A Novel Surgical Approach to a Thrombosed Composite Mechanical Prothesis"
- "Patterns of Antimicrobial Prophylaxis for Coronary Artery Bypass Grafting Procedures in California: Are We Following the Rules?"
- "Central Airway Complications Following VEGF and Chemo-Radiotherapy in Advanced Intrathoracic Malignancies"
- "Abdominal Aortic Aneurysms in Nonagenarians: Morbidity and Mortality with Endovascular Repair and Peripheral Nerve Block Anesthesia"
PRELIMINARY PROGRAM
Southern California Chapter Meeting
January, 17-19, 2014
Santa Barbara, California

SUMMARY

- “Hydatidosis of the Liver and Posterior Mediastinum”
- “The Use of Intravascular Ultrasound in the Management of Penetrating Peripheral Vascular Injury”
- “Postoperative Dysphagia and Aspiration Pneumonia: A Pilot Study in Cardiothoracic Patients.”
- “Endovascular Management of a Large, Complex Pelvic Arteriovenous Fistula using an Amplatzer II Plug.”

2:30pm PEDIATRIC SURGERY SPECIALTY SESSION

- “Are There Racial/Ethnic and Socioeconomic Disparities in Helmet Use Among Those Involved in Bicycle Accidents?”
- “Surgical Salvage of Acquired Lung Lesions in Premature Infants”
- “Surgical Management of Malaria Complicated by Peripheral Gangrene in Pediatric Patients”
- “Fetus-in Fetu: A Case Report and Review of Literature over the Past 15 Years”
- “Intestinal Mucosal Injury Occurs Frequently Before and After Red Blood Cell Transfusion in Premature Infants”
- “An Evaluation of the Utility of Screening for Midgut Malrotation Prior to Gastrostomy Placement in Children”
- “Cervical Spine Injuries in Children with Inflicted Trauma”
- “Intestinal Malrotation in Monozygotic Twins – The Asymptomatic Twins Should be Screened: A Case Report and Review”
- “Torsion of Paratubal Cysts in the Adolescent Population”

4:20pm Panel Discussion on Long Gap Esophageal Atresia

5:00pm Poster Session II

- “The Outcomes of Laparoscopy in the Management of Benign Colonic Polyps: A Nationwide Analysis”
- “Intraoperative Ultrasound Localization of Hydrogel-Based Breast Biopsy Markers as an Alternative to Wire Localization for Non-Palpable Breast Malignancies”
- “The Significance of Seatbelt Signs in Blunt Abdominal Trauma”
- “Not All Intestinal Traumatic Injuries are the Same: A Comparison of Outcomes for Blunt vs Penetrating Injuries”
- “Does Immediate Tissue Expander Placement Increase Perioperative Complications in Breast Cancer patients”
SUMMARY

- “Obesity and its Effects on the Perioperative Outcomes of Pancreatectoduodenectomy: Analysis of the American College of Surgeons National Surgical Quality Improvement Program (ACS NSQIP) Database”
- “Limitations of a Gastric Cancer Quality Measure”

SUNDAY, JANUARY 19, 2014

8:00am Paper Session #7 Topic: Colorectal

- “Alcohol Fat Clearing Increases Lymph Node Yield after Surgery for Colorectal Cancer”
- “Laparoscopic versus Robotic-Assisted Rectal Surgery: A Clinical Comparison of Postoperative Outcomes”
- “Fulminant Clostridium Difficile Colitis: Preoperative CT and Pathology Distribution are Concordant”
- “Homeward Bound: The Safety of Discharging Post Appendectomy Patients Directly Home from the Recovery Room”
- “Laparoscopic Appendectomy Trends and Outcomes in the United States: Data from the Nationwide Inpatient Sample (NIS) 2004-2011”
- “A Mode of Prevention for a Common Complication after Laparoscopic Appendectomy for Advanced Appendicitis at a Busy County Hospital”

CONCURRENT SPECIALTY SECTION SESSIONS

9:25am TRAUMA SURGERY SPECIALTY SESSION

- “VATS and Rib Fixation for the General Surgeon”
- “From the Battlefront to the Homefront: Lessons Learned from Over a Decade at War”
- “Complex Vascular Trauma: How Vein Can You Be?”
- “Cervical Spine Injuries in Children with Inflicted Trauma”
- “Intrathoracic Pressures Prior to Chest Tube Removal in Patients with Chest Injuries”
- “Resuscitation with Warm Whole Blood: A Porcine Model”

10:45am Trauma Point/CounterPoint Debate

- “Long Term Outcomes after Endovascular Treatment of Blunt Aortic Rupture Justifies Widespread Acceptance”
- “Laparoscopy in Trauma: Ready For Prime Time!”
- “Damage Control Laparotomy: Is it Being Over-utilized?”
- End Debate
PRELIMINARY PROGRAM
Southern California Chapter Meeting
January, 17-19, 2014
Santa Barbara, California

SUMMARY

- “I’m Not a Trauma Surgeon But I Play One on TV”: What Hollywood Gets Right (and Wrong)"

9:25am PLASTIC SURGERY SPECIALTY SESSION

- “Direct End-to-Trunk Masseteric to Facial Nerve Anastomosis for Facial Reanimation”
- “Improved Outcomes with Injectable Clostridial Collagenase for Dupuytren's Contracture: A Single Surgeon's Experience”
- “A New Opposition Tendon Transfer for Children Born with an Absent or Hypoplastic Thumb”
- “The Lateral Intercostal Artery Perforator (LICAP) Flap for Outpatient Total Breast Reconstruction”
- “Update in Extremity and Face Transplantation”
- “Retrospective Analysis of Perioperative Conditions, Complications and Outcomes of Lower Extremity Free Flap Reconstruction”
- “The use of Chemotactic Scaffold in Healing Cranial Bone Defects : An Experimental Study”
- “Pathogenesis and Treatment of Delayed Wound Healing Following Radiation Therapy”
- “A Novel Approach to Minimizing Mastectomy Scars and Skin Excess in Implant-Based Breast Reconstruction”
- “A Calibrated Approach for the Reconstruction of the Frontal Bone Flap in Unicoronal and Metopic Craniosynostosis”
- “Direct End-to-Trunk Masseteric to Facial Nerve Anastomosis for Facial Reanimation”

9:25am COLORECTAL SURGERY SPECIALTY SESSION

- “Primarily Open versus Closed Excision of Pilonidal Disease: A Retrospective Comparison”
- “Anal Relaxation is Inversely Correlated with High Pressure Zone Length in Female Patients with Fecal Incontinence”
- “A Colorectal Surgical Unit's Experience with Transvaginal Repair of Rectocele”
- “Risk Factors of Postoperative Upper Gastrointestinal Bleeding Following Colorectal Resections”
- “APR: Does Position Matter?”
- “Complex Anorectal Fistula: Too Many Tools?”
- “Preventing Re-admissions after Colorectal Surgery”
- “Current Status of Rectal Prolapse Repair”

9:25am HEAD & NECK SURGERY SPECIALTY SESSION

- “Surgical Management of Graves' Disease in Pediatric Patients with Down Syndrome”
- “Weight Change after Thyroidectomy”
PRELIMINARY PROGRAM  
Southern California Chapter Meeting  
January, 17-19, 2014  
Santa Barbara, California

SUMMARY

- “MRI Findings Highly Suggestive of Pleomorphic Adenoma: A Validation Study”
- “Direct End-to-Trunk Masseteric to Facial Nerve Anastomosis for Facial Reanimation”
- “Rusty Green Stained Temporal Bone Associated with Exposure to Tetracycline: An Unusual Presentation of Black Bone Disease”
- “Endonasal Endoscopic Skull Base Surgery: A 15 year Evolution from a Microscopic to Fully Endoscopic Technique with Improved Visualization”
- “Core-Needle Biopsy for the Diagnosis of Lymphoma: A Safe and Accurate Alternative to Excisional Biopsy”
- “CTGF is Down-Regulated in Locally Invasive HNSCC”
- “Isotretinoin and Keloid Formation: A Case Series”
- “Lateral Border Scapular Free Flap for Total Lower Lip and Mandible Reconstruction”
- “Scapular Free Flap for Large Wound Following Complications from Third Molar Extraction: A Case Report”
- “Pharyngeal Function Evaluation using MSRT-MRI: A Pilot Study”
- “Dysphagia Rehabilitation Following Total or Partial Glossectomy”
- “Postoperative Dysphagia and Aspiration Pneumonia: A Pilot Study in Cardiothoracic Patients”
- “Early Tracheostomy in Cardiothoracic Surgery Patients: No Negative Impact on Swallowing Function, Pneumonia, or Hospital Length of Stay”
- “Posterior Vocal Cord Ulceration: Preliminary Report on its Incidence and Significance on Tracheostomy”

9:25am  METABOLIC AND BARIATRIC SURGERY SPECIALTY SESSION

- “The Future of Bariatric and Metabolic Surgery”
- “Quality Improvement at State Level”
- “Reducing Re-Admissions and Other Quality Improvement Measures”
- “The Art of Negotiation: A CEO’s Perspective”
- “ASMBS MBSQIP Update”
